

Todd O. Chambers

Associate Partner

Todd is a Pennsylvania and New Jersey registered architect with over 15 years of experience in master planning, building design, space planning, and project management. Prior to joining MKSD, Todd worked as an architect in the greater Philadelphia area where he specialized primarily in projects for Private Independent Schools. At MKSD, Todd is an associate partner that comprehensively manages projects from inception through completion. Todd is also responsible for the operation and direction of the firm's technologic infrastructure, systems, and applications.

During his college years at Temple University, Todd was part of the Freshman Crew team, a member and officer of the Tau Kappa Epsilon fraternity, and a member of the Temple Architecture Students Association. He also spent a semester in Rome, Italy where he learned an entirely new way to look at the world.

Todd knew he wanted to be an architect as a fifth grader, and at the age of 12 he organized the neighborhood kids to create a four-level tree house in the woods built completely from recycled and found materials.

In his time away from architecture Todd enjoys surfing, mountain biking, snowboarding, and goofing around with his two sons.
