

John Young

Project Architect

John Young is a Pennsylvania registered architect is a special part of the MKSD team. As Consulting Architect, Mr. Young utilizes his 30+ years of design experience to develop aesthetically pleasing designs that are functional and cost effective for our clients.

Mr. Young serves as a Project Manager and is responsible for preparing estimates and schedules and overseeing job progress. He also translates designs into construction documents, coordinates drawings with engineering disciplines, expedites the design work, and estimates project costs. Mr. Young represents the architect and the owner and follows a project during construction to ensure project quality and intent. He attends job construction progress meetings, reviews contractor schedules, approves contract changes, reviews progress payments, and oversees project closeout.

John not only designed his own house, he built it with his own two hands.
